Model
St. Gallen WF

Ideally suited for the storage of long and short weapons, as well as ammunition.

The safes comply with the requirements on storage of weapons, pursuant to the Regulation of the Minister of Internal Affairs of 3 April 2003. According to the Institute of Precise Engineering and pursuant to EN 1300, all class A models are as standard equipped with a key lock.

The construction of safes complies also with the requirements contained in the draft regulation on storage, wearing and registration of weapons and ammunition, according to which pursuant to §4 of the draft regulation, weapons and ammunition shall be stored in facilities complying with the requirements of at least class S1 pursuant to EN.
